Senior Project Reflection Questions

1. What were your expectations when you first started to work on the paper, on the product and with your mentor? Did your experiences meet those expectations? How did they differ?

I honestly thought that it was going to be the hardest thing that I was going to do this year. But when I started I realized that it isn't hard at all and all I was just going through was that the last year seniors made it sound so hard that i was stressed even before I started. However if you do your work on time and don't procrastinate than you should have no difficulties

2. What problems did you encounter while researching and writing the paper? What was your greatest resource in overcoming these obstacles?

I did not encounter any problems, Thanks to Allah swt

3. What was the most interesting or surprising information you learned in your research?

That America is ranked the 4th nation with the most growing population of homeless.

4. What did you learn about yourself during this project? How will you use what you learned throughout the rest of your life, academic or not?

5. What did the project teach you about the holistic view Islam has for every aspect of our life?

We need to stop judging people and wake up and realize that we should never judge based on any ones situation or even rank them any lower than us in any way. Me, you, president, homeless person, we are all the same, the only thing that differentiates between us in the eyes of Allah SWT is our taqwa. No one can see what is in peoples hearts only Allah swt therefore don't judge and just do your part of being a good human and not judging.

6. What would you do differently now that you have finished?
I would do nothing differently.

7. What advice would you give to next year's seniors about how to achieve success on the senior project?
Do something that you enjoy doing and make sure that you are passionate about it.

8. What grade would you give yourself for the project? Give your justifications.
I would give myself an A on my project. I have worked very hard on this project. My project has an impact on other people's lives and not only for schools purpose.
